

UNISOURCE SOLUTIONS

# Workplace Services Semiconductor Industry

## Who We Are.

Since 1987, Unisource Solutions has grown to be one of California's leading providers of moving and installation services, specializing in maximizing the utility and value of your furniture investments. We understand the unique needs of the semiconductor industry, offering flexible work arrangements, robust health and safety measures, and advanced sustainability practices to support a dynamic workforce. Our commitment extends to streamlining your operations with state-of-the-art technology for workspace management, ensuring a responsive and productive environment that aligns with your strategic goals. Trust us to enhance your office strategy with minimal oversight and a commitment to delivering on time and within budget.

## Pain Points We're Seeing Today:

Real-time Workplace analytics to make informed decisions around.

- Workplace occupancy trends.
- Workplace activities.
- Workplace agility.
- Efficient workplace utilization.
- Employee feedback and satisfaction levels.
- Meeting predetermined workplace performance objectives.

Managing, and measuring high impact KPIs on a daily basis.

Remote and hybrid work support services.

Workplace wellness and ergonomics.

Supporting reduced in-house resources.

Responding with required additional resources on-demand.

Lowering costs at every touch-point.

## FAQ in Your Industry:
